The Comp Plan in Detail

Every RI.tv member who purchases a Portfolio subscription becomes "active" and will be locked into a position in the company matrix. New members have a 7-day trial before they are expunged from the matrix (and thus potentially losing other new members who have "spilled" under them). Active members move up in the matrix, ensuring that commissionable volume remains compactly up towards the top of the matrix and not scattered out of pay range.

Every member only has 3 potential "positions" on their "front line" where a new member can be placed. This comp plan distinguishes between a "sponsor" and a "placement." It is possible to have a member placed under you whom you did not sponsor, who isn't in your "line of sponsorship," meaning sponsored by someone you sponsored, or someone your team sponsored, etc.

Once a level is filled up (i.e positions 1, 2 and 3 are occupied), the next member to join must "spill over" to the level below, and so on. If you are an active member, a new member can be placed in your "downline" by

A) personal sponsorship

B) duplication (i.e they bring on a new member)

C) by someone above you in the matrix being "forced" to place someone under you, since each member can only have 3 other members on their "front line."

Multiple Ways to Get Paid

The maximum percentages that a fully qualified member can earn are:

- **Personal Bonus:** 20% of the subscription amount of any personally sponsored member
- **Matrix Commissions:** 5% of the subscription amount of any member from **Level 1** down to **Level 10** of your 3 x 10 forced matrix
- **Generation 1 Matching Bonus:** 10% of the check earned that week by a personally sponsored member on their respective 3x10 commissions
- **Generation 2 Matching Bonus:** 5% of the check earned that week by any members who are directly sponsored by your personally sponsored members
